

Tormach PCNC mills are the ultimate maker machines. Whether you're a maker, fabber, innovator, or builder, a Tormach PCNC will enable your ideas with real CNC capability and precision. Don't let your tools hold back your innovation - visit www.tormach.com.

Tormach PCNC 1100 Series 3
starting at:

\$8480

(plus shipping)

Shown here with optional stand, LCD, machine arm, tool rack, and keyboard.

TORMACH MAKER PROFILE - BROOKLYN CUSTOM

Brooklyn Custom Metal Fabrication specializes in custom fabrication for architects, artists, and designers, with installations.

Over the last decade, owner David Stanavich has built a portfolio of high-end custom metal drawer pulls, knobs, and architectural hardware for a diverse commercial and residential clientele. Digital design and CNC fabrication techniques are essential to his products.

"What drew me to Tormach was the affordability of the PCNC mills," relates Stanavich. On the importance of the PCNC 1100 to his business: "What's happening now is that I'm making the shift from a contract fabricator who has never done the same job twice to small-run production work that I am designing."

Stanavich is also using his PCNC 1100 to machine the permanent molds for toys he uses as unique calling cards for the shop.

CAD CAM and Controller software programming examples for a CNC machined prototype part.
